Our best recommendation and advertisement is that hundreds of customers who purchased trees and shrubs from us years ago continue to buy their trees and plants from us. Not only buy their stock from us but order for their relatives and friends.

The HOME ORCHARD is the framework of the HOME GROUNDS.

OUR STOCK—

We have never had finer stock to offer our customers than this season and our prices for this high quality stock are very reasonable indeed. Your orders will receive our personal attention with the view of maintaining a well established reputation for satisfactory service and square dealing. At the present, we are receiving requests daily from our old customers for our 1933-34 catalog and price list. The fact that our customers buy from us exclusively year in and year out is sufficient evidence that our stock is good and gives satisfaction.

TERMS CASH—

We have always done a cash business and expect to continue, because we feel it is the only way to do business on an absolutely safe and satisfactory basis. It enables us to sell high grade stock at low prices.

OUR REFERENCES—

First National Bank of Hattiesburg for our financial standing and as to the high quality of our trees and plants and the freedom from disease and insect pests we refer you to the Mississippi State Plant Board, A. and M. College, Miss., whose inspectors inspect our Nurseries two or more times each year.

MISSISSIPPI STATE PLANT BOARD

Office of Nursery Inspector, A. & M. College, Mississippi

NURSERY INSPECTOR

The undersigned hereby certifies that the General Nursery Stock in the nurseries of Pigford Nurseries located at Lumberton, Mississippi has been thoroughly inspected. The stock, premises and adjacent properties have been found to be apparently free from especially injurious insects, pests and diseases. The owner has agreed to completely defoliate (when possible) and to fumigate properly with hydrocyanic-acid gas or otherwise treat as directed, all stock sold or moved under this certificate as provided in the Rules and Regulations.

A complete list of plants transported under this tag with the name and address of the consignee is on file in the office of the Nursery Inspector at A. & M. College, Miss.

The use of this certificate tag upon nursery stock which has not been inspected by a duly appointed nursery inspector of the Plant Board is a violation of the law and will be prosecuted.

Approved: R. W. HARNED, Entomologist.

GEO. F. ARNOLD, Nursery Inspector.

Nature is wonderfully generous and has showered us with a vast variety of choice plants and trees both deciduous and evergreens. The South especially is doubly blessed with an immense assortment of hardy broad leaved evergreen plants which grow and thrive under our Southern sun and mild temperature.

BEAUTIFYING AND IMPROVING THE HOME GROUNDS

Due to the present condition of the country it is more important than ever that everyone who possesses a HOME make every effort to improve it by making it more comfortable and attractive. Setting out trees and evergreen plants accomplishes this easily, cheaply and quickly.

Every Southern home owner owes it to himself, family and neighbor to eliminate as far as possible the cold hungry stare of bare buildings by placing evergreen trees and plants about the foundation and surrounding grounds. It radiates cheer, gives life and makes the owner and onlooker feel bouyant and full of civic pride. Also it sets an example for others and in short while they too are doing likewise and before one realizes it the entire neighborhood is beautified and improved at little expense and effort.

BE SURE to buy your trees direct from the GROWER if you expect satisfactory results.

NEW POST OFFICE, LUMBERTON, MISS.

Broad Leaf Evergreens

ABELIA GRANDIFLORA—From May until frost the graceful arching branches are covered with clusters of tubular shaped white flowers faintly tinged with pink. The leaves are small lance shaped and glossy green turning to a purplish bronze with metallic sheen in winter. This plant is useful as specimens, for hedges, or in groupings for mass planting around foundations, etc. By pinching off the long tender shoots during the growing season the plant will grow very dense and thick. price, 2½ to 3 ft., 50c; larger size, very choice, 75c.

AZALEA INDICA—A densely growing evergreen shrub which in spring is covered with large bell shaped flowers. We have red, pink and lavender-pink, orchid. Price, 15 to 18 ins., \$1.00, heavier, \$1.50, B. & B.

BOTTLE BRUSH—A beautiful evergreen shrub, leaves narrow, flowers bright red in brushlike spikes, opening in April and continuing in bloom several weeks. Price, 2 to 2½ ft., branched, B. & B., \$1.50.

JAPANESE BOXWOOD—The South has longed for a good hardy, dwarf, compact boxwood that does not scald by the hot sun. This variety seems to be the plant we are looking for. It is fine for borders, formal plantings, boxes, etc. Can be kept sheared any desired shape or size. Price, 12 to 15 in., 50c each; larger, 75c.

CAMELIA JAPONICA—Well known evergreen shrub; large dark glossy green leaves; bush grows to height of 10 to 15 feet, and covered about February with large double blooms. We have red, pink, white and variegated. Price, 10 to 15 inches, \$1.00 each; 15 to 18 inches, branched, \$1.50 each, B. & B.; 18 to 24 inches, branched, \$2.00 each, B. & B.

CAMELIA SASANQUA is a faster growing evergreen shrub with leaves smaller and not so waxy but covered in late fall with magnificent wide open single blooms with yellow center. Colors white and pink. Price, 1½ to 2 ft., \$1.00; 2 to 3 feet, branched, \$1.50 each, B. & B.

COTONEASTER PANNOSA—A beautiful slender, hardy evergreen shrub, leaves small, silvery white beneath, green above. White flowers in spring followed by red berries in winter. Price 2½ to 3½ ft., well branched, B. & B., \$1.00.

COTONEASTER FRANCHETTI—Same as above except there is not the silvery sheen to leaves and the plant droops more gracefully. Price, 2½ to 3½ ft., well branched, \$1.00.

By "B. & B." we mean all specimen evergreen plants listed will be dug with ball of dirt adhering to roots and a piece of burlap pinned around same to prevent soil from falling away from roots. Our land being clay foundation, plants ball remarkably well.

GARDENIA FLORIDUS—This is an improved strain of Cape Jasmine. The foliage is very rich, glossy, dark green, glistening in the sunlight. Our plants are extremely thrifty and beautiful. Blooms of velvety white are large, waxy, and extremely fragrant. Blooms are highly valuable, especially in northern markets. We have about 1000 extra choice plants. We think every Southern home should have one or more of this choice native evergreen. They make wonderful hedges. Price, 2 to 2½ ft., bare roots, 50c each; 2½ ft., branched, 75c; extra large and choice, \$1.50, B. & B.

GARDENIA RADICANS OR DWARF GARDENIA is a small, dainty dwarf plant same as Gardenia Floridus except for the size and tendency of plant to spread or trail. The blooms are used extensively for dainty table decorations, weddings, etc. A customer in New Orleans reports a single plant purchased from us had as many as 1500 blooms on it at one time. Price, 10 to 12 in., 50c each; 1 to 1½ ft. spread, 75c; B. & B.

GUAVA or FEIJOA SELLOWIANA—A hardy, compact evergreen shrub, dark green foliage, grayish beneath; purplish flowers; edible fruit. Price, 1 to 2 ft., 75c; 2½ to 3 ft., branched, B. & B., \$1.25.

AMERICAN HOLLY—A native evergreen tree used for Christmas decorations on account of the red berries and rich green leaves. Price, 2½ to 3 ft., B. & B., \$1.50. Same size puddled roots and defoliated, \$1.00 Ea.

CHINESE HOLLY—Foliage is dark, glossy green all year. Our stock is the genuine berry bearing and most of them have already borne berries which are bright red and larger than American Holly. It grows to tree size unless pruned to shrub size. Price, 2 to 2½ ft., \$1.00 each, B. & B.

ENGLISH IVY is one of the best ground or stone covers. It is hardy, grows rather fast, clings; has rich dark green leaves. Price, well rooted plants, 35c each.

Many customers who buy plants in large quantities from us every year state they get better results from our plants than any they have been able to get from any other source.

REFLECTION

PRIMROSE JASMINE—This is an evergreen trailing plant that may be kept pruned in bush form, making a gorgeous mass or allow to trail on ground or trellis. Has yellow jasmine-like blossoms in early spring; very hardy, thrifty and beautiful. Price, 2½ to 3 ft., 50c; very choice, 75c.

HUMILE JASMINE—A very fine, small leaved evergreen trailing shrub, loaded practically all spring and summer with small yellow flowers. A choice shrub. Price, 2 to 2½ ft., 50c each.

EUONYMUS JAPONICUM is very hardy, upright growing; dark waxy green leaves. Makes fine specimen plants or hedges; grows rather slowly and can be kept sheared to suit ones planting. Price, 1½ to 2 ft., 50c each; 2 to 3 ft., 75c.

ELEAGNUS PUNGENS—Has broad, bronzy green leaves with underside light. The addition of one or more of these plants to a planting blends with the other shades of green, giving a pleasing contrast. Price 2½ to 3 ft., plants \$1.00 each, B. & B.

VARIEGATED ELEAGNUS—Same as above except the leaves are striped with rich yellow giving a very pleasing effect. Price, 1½ to 2 ft., \$1.00.

LIGUSTRUM LUCIDUM—(Waxleaf) is perfectly hardy, vigorous and beautiful the year round. The branches have a tendency to spread, making a compact beautiful shaped shrub, not too dense, and by trimming out a branch here and there, it can be kept to the desired size. The leaves are thick, glossy, waxlike dark green on top with lighter shade underneath. Blooms freely in spring, clusters of white flowers which are followed by blue-black berries in the winter. We have several thousands of the finest plants of this variety. Price, 2 to 2½ ft., well branched, 50c; heavier, 3 to 4 ft., 75c; very fine specimen \$1.00 each; if B. & B. \$1.25 each.

LIGUSTRUM NEPAL—This variety is more spreading than above and leaves are not as waxy. It is fine for filling large spaces. Price same as Lucidum.

LIGUSTRUM GRACILIS—Leaves dark green, pointed, borne thickly on upright curving branches. Price, same.

LIGUSTRUM PYRAMIDALIS—Same as above except growth more upright, leaves smaller. Price, same.

We are often asked to name the most valuable evergreen plants—to this we answer, first is the *Ligustrum Lucidum*, then *Abelia*, *Jasmine*, *Nandina*, *Palms*, *Gardenia*, *Bamboo*, etc., and other varieties as one chooses. For coniferous plants we would prefer first a compact *Arbor Vitea* like *Bonita*, then tall *Bakers*, *Berckmans*, *Cedrus Deodara*, *Pfitzer Juniper*, etc.

We have many thousand choicest *Ligustrums* in all sizes. This is the **BEST** all purpose Evergreen.

LIGUSTRUM JAPONICUM—Most rapid tall growing variety, usually growing several feet in one season; effective in almost any planting scheme where height is desired. The leaves are light to dark green, large and broad. Price, 3 to 4 ft., each; heavy, well branched, 75c each; 5 to 6 ft., very heavy, well branched, \$1.25, B. & B.

BIG LEAF LIGUSTRUM JAPONICUM. The leaves are very large and waxy. Plants are grafted. Price, 2½ to 3½ ft., 75c; 4 to 5 ft., heavy, \$1.00; if B. & B. \$1.25.

CHERRY LAUREL—One of the most beautiful, hardy and useful evergreens which can be kept pruned to bush form or allowed to grow tree size. Foliage rich green, glistening in light; loaded with white flowers in spring followed by blue berries. We have choice lot of bushy, well formed plants, especially useful for backgrounds. Because plants live better we shall ship them pruned and defoliated with roots puddled so that express should be little. Price, 3 to 4 ft., 75c each; 4 to 5 ft., very choice, \$1.00 each. If wanted B. & B., add 25c extra.

LAVENDER TRUE—A dwarf plant with light grayish blue foliage that is choice to use with the other shades of green. They do not grow higher than one foot and about 2 ft., spread, and are used mostly for borders or specimen plants about entrances, steps, etc. Price, 8 to 12 ins., 50c.

LEUCOPHYLLUM—Growth bushy, leaves rather small of a light shade of gray blue all the year, which makes it most attractive. It blooms freely all the summer until frost of small orchid flowers. Price, 2 to 3 ft., well branched, \$1.25 each, B. & B.

LOQUAT (Japanese Plum)—Small tree-like bush; leaves large, light shade of green; flowers borne in panicles during winter and spring. Price, 3 to 4 ft., branched, puddled roots and defoliated, \$1.00 each.

"We have bought shrubs for several years but we have never received such large, strong stock as from you. We certainly thank you and shall advise all our friends to buy from you ONLY"—Miss. 1932.

A POOL GIVES INTEREST

MAGNOLIA FUSCATA is an old time favorite evergreen bush. Leaves thick, bronzy green. White fragrant blooms. Price, 1½ to 2 ft., \$1.00, B. & B.

MAGNOLIA GRANDIFLORA well known. Large thick, evergreen leaves, large white blooms in spring. Price, 2 to 2½ ft., 75c; 2½ to 3 ft., \$1.00; 4 to 5 ft. branched, very fine, \$2.00 each; 8 to 9 ft., \$3.00. B. & B.

NANDINA DOMESTICA—One of the choicest evergreens. The foliage is different shades of green during the summer, turning to rich red during winter. Plant loaded with red berries during winter. This plant is called "heavenly bamboo". As it gets older, many shoots are sent up from the ground making a mass of young plants. We have several hundred extra choice plants. Price, 2 to 2½ ft., several stems, \$1.25 each, B. & B.; 3 to 3½ ft., 3 or more stems, heavy, \$2.00 each, B. & B.

PHOTINA SERRULATA—Growth bushy with large holly-like leaves which are red when young, turning to dark green when mature; in spring, clusters of white blooms. The red foliage gives a lively color to plantings which makes this plant one of the choicest new plants. Price, 2 to 2½ ft., branched, \$1.00; 2½ to 3 ft., heavy choice, \$1.50 each, B. & B.

PHOTINIA GLABRA—This is another new evergreen plant that is very choice and seldom seen in ordinary plantings. We have two in the plantings about our house that give a live, gay look by the young foliage which is a bright red shading into green. This plant is bushy and can be kept trimmed to suit the planting. Now (middle of August) they look, from a distance, like a mass of red blooms. Price, 1½ to 2 ft., branched, \$1.00 each; 2½ to 3 ft., \$1.50 each; B. & B.

PITTOSPORUM TOBIA—A rich, waxy green leaved evergreen grown so extensively in lower south. The leaves grow in clusters at end of branch, making a round broad plant. Has white fragrant blooms in spring, very rich and pretty. Price, 1½ to 2 ft., \$1.00 each; 2½ to 3 ft., B. & B., \$1.50 each.

PITTOSPORUM VARIEGATED—Leaves striped with yellow. Price same as above.

The restfulness of green surroundings, the joy that comes from blooming plants; the happiness of a beautiful and comfortable home and the pleasures shared with others is human's greatest inheritance.

There was never a more opportune time to LANDSCAPE YOUR HOME GROUNDS than this season while stock is so cheap.

PYRACANTHA LALANDII (Evergreen Hawthorn)—A tall growing evergreen shrub; leaves long and narrow, loaded from August 1st throughout the winter with clusters of rich, orange red berries. Hundreds of plants in our nursery now 4 or 5 ft. covered with berries, are the show of the place. They are hardy and give color to plantings—resembles the native Yaupon. Price 3 to 3½ ft., 75c; 4 to 5 ft., well branched, \$1.50 each, B. & B.

PYRACANTHA FORMOSA—A new low growing Pyracantha, berries similar to Lalandii except they are bright crimson red and hang in immense clusters. Very beautiful. Price, 2 to 3 ft., \$1.00 each, B. & B.

RAPHIOLEPSIS INDICA—A very fine dwarf evergreen shrub. Leaves roundish, thick, dark green. Flowers pinkish white in flat bunches, resembles Rhododendron. Growth similar to Pittosporum Tobia. Price, 1½ to 2½ ft., B. & B. \$1.00.

SWEET OLIVE—An old time garden favorite evergreen shrub. Leaves dark green, medium size, spiny—Small white blooms, extremely fragrant. Price, 15 to 18 inches, puddled roots, 75c each; 2 to 2½ ft., \$1.25.

VIBURNUM TINUS (Laurestinus)—A very hardy, thrifty evergreen shrub. The leaves are smaller than other viburnums; blooms in January and February, clusters of pinkish white, very fragrant. Choice. Price, 2½ to 3 ft., well branched, \$1.00 each, very choice, \$1.50 each. B. & B.

VIBURNUM SUSPENSUM—Foliage two tone green, leaves slightly crinkle, bushy—Blooms in February, clusters, very fragrant pinkish white blossoms. Price, 2½ to 3 ft., \$1.25, B. & B.

YAUPON—A native evergreen holly, small foliage, compact, bushy; red berries during winter, produced in great profusion. One of the best native shrubs. Price, 1½ to 2 ft., B. & B. \$1.00 each; 2½ to 3 ft., B. & B., \$1.75.

JAPANESE YEW—Very desirable evergreen bush, especially for shady locations. Has narrow, dark green leaves. Slow growth. Price, 2½ to 3 ft., \$1.00, B. & B., 3 to 4 ft., \$1.50, heavy.

Visitors from other sections of country are charmed with our Palms, Bamboos and broad leaved evergreens.

BAMBOO—We have 3 kinds, viz: the small leaved, the large green leaves and the striped cane variety. All are good hardy sorts and make fine specimens. Price, small clumps, 50c; large clump, 75c.

BANANAS—A clump of bananas set on the grounds makes one think of the tropics and are an attraction, with the beautiful large, green leaves swaying back and forth with the winds. Price, \$1.00 each per bulb.

CENTURY PLANTS—Beautiful thick blue green fronds, some variegated; blooms once in a century. Very choice and attractive. Price, 8 to 12 inches, 50c each.

SABOL PALM is one of the hardiest, as well as the most stately palms. It stands temperature around zero. It has large, fan shaped leaves, body of tree is well protected with fuzz. Price, 1½ to 2 ft., \$1.00; 2½ to 3 ft., \$1.50, B. & B.; 3 to 4 ft., \$2.50 each, B. & B.; 4 to 5 ft., very choice, heavy, \$4.00 each, B. & B.

COCOS AUSTRALIAN PALM—Absolutely hardy spreading type palm with gray green foliage. The choicest low growing variety. Be sure to include one or more in your order. Plants 4 years, fine size to transplant. Price, \$1.00 each, heavier, \$1.50, B. & B.

PAMPAS GRASS—This variety grass makes attractive specimen plants on the lawn. It is a rapid grower, foliage rich blue green; big plumelike white blooms. Price, medium clumps 75c each, large, \$1.00.

YUCCA FILMENTOSA is being used so much about the new homes of Spanish architecture; long fronds of gray green; clusters of white flowers. Price, 50c each.

YUCCA—SPANISH DAGGER—Upright, long narrow dark green leaved Yucca; ultimate height about 15 feet. Has large clusters of white blooms in early spring. One of the best hardy Yuccas which gives a tropical touch to the planting. Price, 2 to 2½, 75c each. Larger, \$1.00 each.

SABOL PALM

Everyone is realizing more and more each year that money spent on beautifying and improving the HOME ground and orchard bring in fruit and beauty far in excess of amount spent for the trees and plants.

CONIFEROUS EVERGREENS

BAKER'S COMPACT PYRAMIDALIS ARBOR VITAE—This is the best TALL DARK GREEN, compact arbor vitae. It is perfectly hardy. Foliage stays rich green all year. Where a tall dark green conifer is wanted, this is the variety to set. We have several hundred extra choice plants. Price, 2½ to 3 ft., \$1.50 each; 3½ to 4 ft., \$2.00; 4½ to 5 ft., \$3.00; 5½ to 6 ft., \$4.00, B. & B.

BERCKMAN'S GOLDEN ARBOR VITAE—Best dwarf growing Arbor Vitae. It is exceedingly desirable to give life and color to a dark green planting. It is very compact, slow growth, conical shape. Very hardy and choice. Price, 1½ to 2 ft., \$1.25 each; 2 to 2½ ft., \$1.50; 2½ to 3½ ft., \$2.00 each; 4 ft., extra heavy, \$3.00, B. & B.

BONITA ARBOR VITAE—Best slow, dwarf growing, compact dark green arbor vitae. Foliage rich, dark green all the year; very hardy and good. Fine for urns and small specimen plants. Price, 1½ to 2 ft., \$1.25; 2 to 2½ ft., heavy, \$1.50, B. & B.

BEVERLYENSIS ARBOR VITAE—Tall growing golden arbor vitae, hardy, fairly rapid grower. Price, 3½ to 4 ft., \$1.25; 4 to 5 ft., \$1.50, B. & B.

COMPACTA ARBOR VITAE—Globe shaped. We have very choice stock of this beautiful variety. The foliage is soft green; growth hardy, compact. Price, 2 to 2½ ft., \$1.25; 2½ to 3 ft., \$1.50 each.

TALL COMPACTA ARBOR VITAE—Same as above except grows tall. Price, 2½ to 3 ft., \$1.25 each; 3 to 4½ ft., \$1.75.

ROSEDALE ARBOR VITAE—Compact, blue-green feathery foliage. Price, 2 to 2½ ft., \$1.25, B.&B.

ORIENTAL ARBOR VITAE—Rapid growing, hardy, dark green foliage. Splendid for back grounds or where height and a quick growing conifer is wanted. Price, 3½ to 4 ft., \$1.00; 4 to 5 ft., \$1.50; 5 to 6 ft., \$1.75, B. & B.

ROYAL ITALIAN CYPRESS—This is the much sought for tall, narrow, upright growing conifer. The foliage is a rich green. Price, 4 to 5 ft., \$1.50; 6 to 8 ft., \$2.50, B. & B.

Buy direct from the Nurseryman to be sure of getting stock freshly dug
and shipped immediately to you.

CHINESE FIR—A fast growing fir shaped tree doing well in the lower South. The foliage is spiny, glossy green. Plant grows rather fast to a height of about 18 to 20 ft. Used mostly for specimen plants. Price, 2½ to 3 ft., \$1.25 each; 3 to 4 ft., \$1.50; 5 to 6 ft., \$2.50, B. & B.

Cedrus Deodara

CEDRUS DEODARA is said to be the most beautiful and graceful of all the coniferous evergreens. It is called the "Spruce of the South". Since the spruce does not stand the southern climate, yet the Cedrus Deodara thrives and makes wonderful trees, grows rapidly. The foliage is feathery and of a most pleasing blue green; the lower branches sweep gracefully, giving the tree a stately appearance. Your home grounds would be greatly enhanced, both in beauty and value by the addition of one or more of these conifers, especially on the lawn. They are "Nature's Christmas Tree" and when lighted radiates Christmas cheer, joy and gladness to the entire community. Price, 2½ to 3 ft., \$1.50 each; 3½ to 5 ft., \$2.50; 5½ to 7 ft., \$3.50, B. & B. Write for prices on larger trees.

CANADENSIS JUNIPER—This variety juniper is not as well known as the Pfitzer, but is very useful. The foliage is blue green, spiny. Height seldom exceeds 2½ to 3 feet; spread may be several feet. Price, 2½ to 3 ft. spread, \$1.50 each.

JUNIPER CHINENSIS PYRAMIDALIS—One of the best tall, compact growing Junipers. It is hardy, thrifty, fairly rapid grower and fills many useful spots about the planting where a tall conifer is desired. The foliage is a beautiful green with a blue sheen. Price, 2½ to 3½ ft., B. & B., \$1.25 each; 4 to 5 ft., \$1.50 each.

JUNIPER CONFERTA—A true creeper, spreading but seldom reaches a height more than 1 to 1½ ft. It is especially used for rock gardens, terraces, etc. Price, 2½ to 3 ft., spread, \$1.00 each.

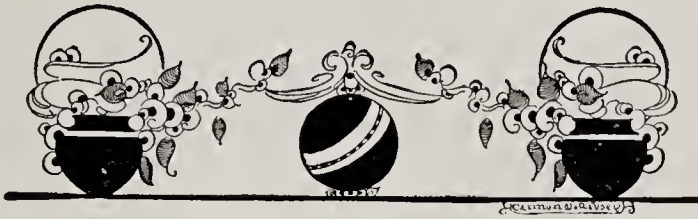

PFITZER JUNIPER is the best low, spreading type juniper. The foliage is rich blue green all year. The plant is very hardy, fairly rapid grower and very useful for planting in front of other shrubs, as well as for terraces and corners. Price, 2 to 2½ ft. spread, \$1.25 each; 2½ to 3 ft. spread, \$1.50 each, B. & B.

SAVIN JUNIPER—Slow growing, semi-erect, many branched shrub, usually growing not over 2 to 3 feet high with several feet spread. Very similar to the Pfitzer Juniper except foliage is one color green whereas Pfitzer has two colors. It is very hardy. Price, 2½ to 3 ft. spread, \$1.00, B. & B.

SPINY GREEK JUNIPER—This beautiful variety forms a tall dense, conical head, tapering gradually from the ground to a terminal point, of a fine bluish green color. The growth is slow so that the tree is well adapted for foundation planting, rock gardens, etc. Price, 2 to 2½ ft., \$1.25 each; 2½ to 3 feet, \$1.75, B. & B., heavier.

"Your plants came this morning. We are more than delighted to say the least. Hope to send you another order soon."—La. 1932.

HOW TO SET OUT TREES AND PLANTS

Immediately upon receipt of stock open and if dry set roots in water. Dig hole larger than necessary to

set stock. To 4 parts good top soil mix 1 part well rotted barnyard manure. Wash most puddle off roots. Spread roots out and set about same depth as they naturally grow. Pack top soil mixture in and around roots firmly. Pour in sufficient water. Let settle. Finish filling hole. Leave trench around, add more water. When soaked in, pack firmly. Watering when necessary. If plants are balled LEAVE THE BURLAP ON. Set as above.

NEVER PUT COMMERCIAL FERTILIZER IN HOLE. It may be applied around on top of the ground and hoed in.

The best way to save is **CLUB** in with your friends and get stock in **QUANTITY** Lots and Prices.

VARIEGATED GREEK JUNIPER—Same as Greek except there are many splotches of rich cream foliage in with the green. Most attractive and desirable. It is hardy and you would be pleased with it. Prices, 2 to 2½ ft., \$1.50, B. & B.

JUNIPER VIRGINIANA GLAUCA is one of the best conifers in landscape work where a TALL REAL BLUE-GREEN plant is desired for the color scheme. They may be trimmed columnar shape or branches may be allowed to spread gracefully. Price, 3 to 4 ft., \$2.50 each, B. & B.; 5 to 6 ft., \$3.50 each.

JUNIPER SYLVESTRIS—Rather tall, rapid growing, hardy, upright, spreading juniper that is valuable for the South. Foliage is rich, glossy, showing both dark and light green color. Price, 2½ to 3 ft., \$1.25; 3½ to 4½ ft., \$1.75 each, B. & B.

RETINASPORA ERICODES—This is one of the most beautiful rich dark blue green conifers of soft, feathery compact foliage. Rather rapid upright grower. Price, 3 to 4 ft., \$1.50 each; 5 to 6 ft., \$2.00 each.

RETINASPORA SQUARROSA—Same as above except foliage is a silvery blue color. Price, 3 to 3½ ft., \$1.25 each.

MAHONIA BEALI

Evergreen bush especially suitable for shady places and near pools. Has large, shiny waxy holly-like leaves; white blooms and clusters of blue berries. Price, 12 to 13 ins., 75c.

"I am so pleased with the Columbia roses gotten from you early last season. Please send your fall catalog as I want to make another order right away." Ark., 1932.

Young lovers as well as old hearts are thrilled at the sight of beautiful roses.

well; growth robust and vigorous, carrying the large well formed blooms on long heavy stems; fine for cut flowers; blooms all summer.

FRANCIS SCOTT KEY—Blooms rich red shading to lighter red, full double; fragrant; strong stems; very vigorous.

Pink Varieties

PINK RADIANCE—One of the most satisfactory pink varieties. Buds are large pointed, opening full, beautiful rosy carmine color when opening, changing to a light carmine pink on outside of petals, and a light silvery pink on the inside, making a striking two-tone color combination. Together with the Red Radiance, they are the two BEST roses.

COLUMBIA—One of the choicest pink everblooming roses. Plant thrifty, good foliage. Buds on heavy stem, open out full and double of a clear, rich pink. One of our favorite varieties.

JONKER J. L. MOCK—A fine velvety two tone pink, the under side of petals being a dark shade of pink with light silvery pink on inside. Large strong buds borne on strong stiff, smooth stems. Hardy and fine.

BETTY UPRICHARD—This variety is similar to Los Angeles except the pink is a deeper color, therefore makes a rich combination.

WILLOWMERE—Shrimp pink color, showing a suffusion of yellow in center; long pointed buds; foliage and growth heavy.

PINK MAMON COCHET is a light clear pink, with outer petals of deeper pink shade. Old time garden rose.

PAUL NEYRON—Flowers are pure pink in color, exceptionally large and full; growth upright, strong and vigorous.

ROSES

OUR ROSES—

We have carefully selected the best varieties of roses which with proper care will produce long-stemmed roses throughout the spring, summer and fall.

All our varieties listed below are monthly bloomers, 2 year field grown, either budded or grafted on hardy root stock which makes them free of any root disease.

Price of all varieties No. 1, strong, 2 year field grown plants, 50c each; 5 for \$2.15; 10 for \$4.00 except where marked otherwise.

Red Varieties

RED RADIANCE—In our opinion the VERY BEST ALL PURPOSE rose in existence for the average grower. Buds are a clear carmine red, large, full, and opening

White Varieties

KAISERIN AUGUSTA VICTORIA—Flowers creamy white, large full and fine form; growth vigorous, free flowering; very desirable white rose.

WHITE AMERICAN BEAUTY is a fine white rose. Blooms very large, on stiff stems with splendid foliage.

Yellow Varieties

LUXEBURG—Flowers rich deep yellow tinged with red, large full pointed buds borne on long stems, opening up well; growth vigorous, upright, healthy and free flowering. Very fragrant.

JOHANNA HILL—One of the newest roses and after trial we find it very satisfactory. The blooms are a rich lemon yellow; long pointed buds opening out in full heavy blooms; strong stiff stems; hardy thrifty bush with rich green foliage.

You'd be pleased with it. Price, 75c each.

SUNBURST—Flowers and buds similar to Luxemburg except clear orange color; very pretty.

TALISMAN is one of the new popular varieties that is being advertised now. The buds are borne on good stems, have ruffled edges and open out in full double blooms of a saffron yellow tinged and striped with red. Foliage is a light green color. Plant vigorous. Price, No. 1 field grown, 60c each.

Climbing Varieties

CLIMBING COLUMBIA is identical with the bush except is a thrifty climber.

CLIMBING RED RADIANCE is also same as the bush with the exception of being a healthy climber. We are sure you can not get better varieties than the Radiance.

CLIMBING KAISERIN AUGUSTA VICTORIA—Same as bush except is a monthly blooming climber.

CLIMBING SUNBURST—We like this variety best for a yellow climber. Flowers and habit same as the bush form. Price, 50c each; 5 for \$2.15; 10 for \$4.00.

"GLADS"

VARIETIES—ALBANIA, Pure White; ALICE TIP-LADY, orange saffron; SHAYLOR, deep rose pink, ruffled; HALLEY, very early salmon pink; WILBRINK, pale rose pink.

Price, extra large blooming size, 60c per doz. Small bulblets, 75c per 1000. Not less than 1 dozen bulbs or 1000 bulblets sold.

JUNIOR SPECIMEN PLANTS

TOP ROW—Savin Juniper, Pfitzer Juniper, Canadensis Juniper.
BOTTOM ROW—Berckman's Arbor Vitae, Baker's Arbor Vitae, Italian Cypress,
Greek Juniper, Chinese Juniper, Sylvestris Juniper and Oriental Arbor Vitae.

We list below the different varieties of plants in the Junior size which is a size smaller than the ones listed. They are of the highest quality, splendid size to transplant and are shipped with roots packed in damp moss therefore postage is little.

By fertilizing and caring for these plants they will soon be large size and at a very nominal cost.

We advise, if you do not feel able to buy the larger sizes listed, to get this size and be willing to wait and watch them grow. By buying our plants you are sure of getting the choicest varieties freshly dug from the ground and are not the questionable stock offered by some stores. We heard of a person buying last season \$18.00 worth of Junipers, Arbor Vitae, etc., from a chain store and in two months time practically every plant was dead as a bone. You can imagine the disappointment! But why buy dead plants when it is so easy to get them fresh from a reliable grower at reasonable prices?

We will pay the postage on an order of \$5.00 or more of Junior size plants.

ALTHEA

DECIDUOUS SHRUBS

PINK FLOWERING ALMOND—Double flowers borne all along the stem. 18 to 24 inches, each 50c.

ALTHEA—ROSE OF SHARON—There is not a more useful and beautiful deciduous ornamental shrub than the Althea. It blooms constantly from early summer until late fall. Demands very little attention and endures the dry hot summer fine. Colors, double white; single white; single purple; double red; white with red throat. Price, 2½ to 3 ft., 35c each; 10 for \$3.00.

BEAUTY BUSH—Another new introduction in the last few years. It is hardy and covered in May with clusters of pink blooms. Price, 2 to 3 feet, 50c each.

BUTTERFLY BUSH (BUDDLEIA)—A rapid growing, graceful shrub, with light green foliage. It is covered from midsummer to frost with long spikes of lilac-like blossoms. Excellent for cutting. 24 to 30 ins., 35c each.

CALYCANTHUS (SWEET SHRUB)—Has dark green foliage and chocolate colored flowers. Price, 18 to 24 inches, 35c each.

CORALBERRY—An old time shrub producing a wealth of purplish red berries which remain on branches all winter. Price, 2½ to 3 feet, 35c each; 10 for \$3.00.

CYDONIA (FLOWERING QUINCE)—Low growing shrub, branches covered with red flowers early in spring before leaves put out. Price, 18 ins. to 2 ft., 35c each.

DEUTZIA—A tall shrub, panicles of double white blossoms with back of petals pink. 2 to 3 ft., 35c each; 10 for \$3.00.

GOLDEN BELL (FORSYTHIA)—Long before the leaves appear, the branches become studded with the bright yellow blossoms. Price, 2½ to 3 ft., 35c each; 10 for \$3.00.

HONEYSUCKLE BUSH—Pink flowers early in spring. Price, 18 to 24 inches, 35c each; 10 for \$3.00.

CALLICARPUS—Full low growing bush; small pink flowers followed by clusters of berries. Price, 35c.

HYDRANGEA—HILL OF SNOW—A compact headed shrub of medium height. A mass of white flowers in round panicles from July to September. Price, 18 to 24 inches, branched, 50c each.

HYDRANGEA PANICULATI—From midsummer to late fall the entire top is covered with a mass of white blooms borne in panicles. 18 to 24 inches, 50c each.

PEARL BUSH—Is a hardy bush that is covered in May with pure white blooms with yellow centers. Very much like mock oranges except blooms are in great clusters. Price, 2 to 3 ft., 50c each; 10 for \$4.00.

PERSIAN LILAC—It is generally thought that Lilacs would not bloom here in the lower South until they are several years old. This is true of rooted plants, but our grafted plants bloom the first year one or more times. Plants being literally loaded with heavy trusses of lilac blooms. Price, 3 to 3½ feet, 75c each.

MOCK ORANGE—A vigorous, hardy bush which bears in April, profuse sprays of white flowers. Price, 2 to 3 feet, 35c each; 10 for \$3.00.

OLEANDER—Hardy pink. Price, 2 to 3 feet, 75c each.

AMOR RIVER PRIVETT SOUTH is by far the best privett for our Southern climate and soils, where it is practically an evergreen. Can be trimmed to any desired shape. Price, 2 to 3½ feet, branched, 10 for \$1.00; 100 for \$7.00.

FLOWERING POMEGRANATE—A very ornamental shrub with glossy green foliage; scarlet flowers in spring in great profusion. Price, 18 to 24 inches, 35c each.

JET BEADS—Deciduous bush covered in fall with jet berries. Price, 35c.

CREPE MYRTLE

Every Southern Home Should Have One or More Plants
WE HAVE SEVERAL HUNDRED CHOICE PLANTS.

CREPE MYRTLE—It is loaded from early summer to late fall with large panicles of beautiful flowers. We have the pink, lavender, white and crimson, 2½ to 3 ft., fine, 50c; large size, very choice, 75c.

SPIREA VANHOUTEI—All the Spireas are very hardy, easily grown and bloom extravagantly. This is one of the most popular Spireas, graceful in habit and producing a profusion of white flowers in March and April. Price 2 to 3 feet, 35c each.

SPIREA ANTHONY WATERER is a low, broad type Spirea with large corymbs of crimson flowers all the summer, if old blooms kept pinched off. Price, 15 to 20 inches, 35c each.

SPIREA THUNBERGII—Medium size bush, small fine foliage, loaded early in spring with small daisy-like white blooms. Price, 2 to 3 feet, 35c each.

VITEX or CHASTE TREE—Resembles the butterfly bush or Buddleia. The blooms are also similar, except are smaller. It is hardy and blooms all summer. Price, 2 to 3 feet, 50c each.

WEIGELA—In the spring when in bloom, only the Azalea can compare with it. Grows several feet high and wide. Branches covered from top to bottom with masses of bell-like blooms which last about two weeks. Price, pink (Rosea); Red, (Eva Ratke), 50c each.

WISTERIA—Strong, vigorous vine, loaded in early spring with long panicles of purplish blue blooms. Very valuable for the pergola, trellis, etc., 2 years, 2 to 3 feet, 50c.

WHITE WISTERIA—Same as blue except the blooms are white. Price, 50c each.

SCARLET TRUMPET HONEYSUCKLE—A very rapid growing VINE, blue green foliage; bright red trumpet shaped flowers borne in clusters; blooms freely. Price, 18 to 24 inch plants, 35c each; 10 for \$2.50.

HALL'S HONEYSUCKLE VINE is almost evergreen in this section. Blooms from early spring throughout summer of yellow and white very fragrant blooms; hardy and thrifty. Price, 35c each; 10 for \$2.50.

Deciduous Shade Trees

GOLDEN RAIN TREE (SHOWER)—This tree is grown extensively in California. It makes a well shaped tree covered with lacy fern-like leaves; yellow blooms. Price, 3 to 4 ft., trees, 75c each.

TEA'S WEEPING MULBERRY—A hardy mulberry tree, limbs and foliage droop gracefully to the ground, and makes an unusually attractive tree, especially on large lawns or grounds where they have space. Price, 4 to 5 feet, \$1.50 each.

RED LEAF MAPLE—This variety makes a good shade tree the leaves of which turn a brilliant red in the fall and last some time. Has clusters of red blooms first thing in spring. Price, 3 to 4 feet, 60c each.

WHITE FLOWERING DOGWOOD is a native of this section and thrives on most all soils. Tree covered in spring with large white flowers followed by red berries. Foliage pretty. Price, 4 to 5 feet, 60c each.

PINK FLOWERING DOGWOOD is identical with the white dogwood except the blooms are a beautiful shade of pink. Price, 2½ to 3 feet, 75c each.

MIMOSA makes one of the prettiest low trees. The leaves are dark velvety green; shaped like fern. Pink blooms. Very vigorous. Price, 3 to 4 ft., 60c each.

LOMBARDY POPLAR is one of the finest trees for sky line and therefore used so much in the best planned home grounds. Its foliage is a rich beautiful green. Extremely rapid grower, tall, stately, holding its branches close and upright. We offer only the choicest trees with heavy root system. Large, well branched, 6 to 8 ft., 75c each; 10 for \$6.00. 1 year, 4 to 5 ft., 50c each; 10 for \$4.50.

SILVER LEAVED POPLAR grows rapidly, makes a fine spreading shade. The top of leaves is a deep rich green and underside is a shade of silver. 2 year branched, 4 to 5 feet, 60c each.

PURPLE LEAVED PLUM is being used extensively for color in plantings. The shade of red is different from most any other, being a rich wine. Price, 3 to 4 feet, well branched, grafted trees, 75c each.

AMERICAN RED BUD OR JUDAS TREE—A small tree with large heart shaped leaves, purplish red flowers borne close along the stems in early spring before leaves appear. Price, 3 to 4 ft., 60c each; 5 to 6 ft., 75c.

JAPANESE FLOWERING CRAB is one of the prettiest flowering trees which is loaded in early spring with great clusters of pink blooms. Price, 4 to 5 ft., 60c each.

TEXAS UMBRELLA CHINA makes the quickest and densest shade of any tree known, 3 to 4 ft., 50c each; 4 to 6 ft., 75c each.

PARSLEY HAW is a native small tree covered in spring with dainty white flowers followed by red berries in winter. Price, 3 to 4 feet, 60c each.

PAPERSHELL PECANS

More and more we see the need of planting papershell pecan trees about the home, first as a framework for the landscape, then for the splendid shade and best of all, for the delicious and valuable nuts. Personally our home would be ruined without the fine thrifty pecan trees. And now, as we begin gathering nuts we appreciate the trees more than ever.

Every home should have two or more trees. Every farm should have a pecan orchard of 20 to 100 trees depending upon the size farm. The money brought in by the nuts helps the farmer to diversify and often pays the taxes on the entire farm.

Our trees are either budded or grafted on strong thrifty root stock. We carefully select our wood from our best bearing trees therefore know just how fine our trees are.

We have thousands of extra choice trees in our pecan nursery now and we are sure you can not find any better, anywhere, at any price.

By all means buy your trees direct from a reliable Nurseryman, freshly dug and properly packed so roots never dry out. We take all necessary precaution to grow and sell only best stock, handled with best possible care so that every tree should give entire satisfaction.

We handle only the two best varieties, viz, Stuart and Success because we know they ARE the two best for all purposes and section of country.

Set your orchard this season. Prices for good fruit and nut trees are in line with other agricultural products.

PECAN TREES are a permanent investment. Whatever you do, be sure to buy your Pecan Trees only from the most reliable growers.

A BASKET OF OUR BIG STUART PECANS

STUART—The very best variety of Papershell Pecan for all purposes and for all locations. The tree is hardy, grows off promptly, is practically immune to attacks of insects or disease. It bears early, regularly, holds its nuts under different weather conditions, and responds to good treatment. The nut is large, averaging 40 to 50 per pound; kernel plump, bright, delicious flavor, rich, oily. Shell thin, easily cracked in hand. Very fine. Were it necessary to have only one variety we should certainly choose this one.

SUCCESS—This is the next best variety. It comes into bearing early and bears heavy crops. The nut is very large, ovate shape. The kernel is plump, heavy, rich, and a delicious walnut flavor all its own—to us the best flavored nut. The shell is thin and cracks easily.

PRICES BEST PAPERSHELL PECAN TREES

Size	Each	10	100	Size	Each	10	100
3-5 ft., -----	\$.75	\$ 6.50	\$ 55.00	7-8 ft., -----	1.50	12.00	90.00

6-7 ft., -----	1.25	10.00	75.00	Extra large, fine for yds.	3.00	25.00	200.00

JAPANESE WALNUTS

A broad spreading tree, ultimate height about 30 feet, rapid grower; very thrifty. It begins to bear second or third year and often produces in one season 1 to 1½ bushels per tree. Nuts borne on long clusters, very rich, delicious, shell medium hard; cracks easily. Very fine. Price, 3 ft., 50c each; 4 ft., 65c each; 5 to 6 ft., 80c each; 7 ft., \$1.00.

BLACK WALNUT—Well known, same price as Japanese.

Japanese Walnuts

With well directed effort and intelligent care there is no small investment that will return so great a dividend as a HOME ORCHARD of fruits and nuts.

Set out trees this season so you and your family may enjoy choice fruit next season. Sooner you get them out the sooner you will have fruit to eat.

PEACHES

Every garden, lot or farm should have a few peach trees for family use, as well as commercial. Several varieties ripening in succession should be set, in this way, have fresh peaches from May 15th to September 15th. Only those who have experienced it know the joy and profits of having peaches direct from the trees for home use and to give friends, as well as to sell or to can.

OUR TREES are grown by us in our nurseries. By using rich, fertile, new land, best foundation stock; by proper care, fertilization and cultivation we have very choice stock. We have selected only the best tried varieties which we unhesitatingly recommend for the Home Orchard which ripen in the order named below.

MAYFLOWER is the earliest peach to ripen. It is a cling, large, with red blush. Being first on market is a ready seller.

EARLY ROSE—One of the best early varieties. Blooms late, therefore misses the late frosts. Fine, large, juicy, very heavy bearer, firm. Has fine red blush; cling. Ripens in early June.

RED BIRD CLING—Very fine, ripening in June. Flesh firm, red to seed. Cling.

HILEY BELLE—Begins to ripen before the Carmen is gone. Very red blush. Flesh, firm, excellent, when ripe creamy white. Freestone.

"The trees I bought are doing fine—some of them had fruit on them this season. I hope to be able to get more the coming season. As soon as your new catalogs get out send me one."—Miss.

Set your orchard **THIS** season—**NOW!**

BELLE OF GEORGIA—Large, skin and flesh light, creamy; excellent flavor.

EARLY ELBERTA—Same as Elberta except ripens couple weeks earlier.

J. H. HALE—Large, deep yellow flesh, red blush, fine and sweet. Freestone. Middle of July.

ELBERTA—Large, yellow, red cheek, firm, fine for canning, also for preserving. Freestone, July and August.

INDIAN—Old fashioned. A very fine, sweet, juicy, cling. August.

HEATH CLING—Large, white meat, very sweet, juicy, delicious. Cling. August.

	Each	10	100
June Buds 1½ to 2 feet.....	\$.20	\$1.80	\$12.50
1-Year, 3 to 4 feet.....	.30	2.50	20.00
Branched 2-year, 4 to 5 feet.....	.45	4.00	35.00

EARLY GOLDEN APRICOTS—Medium size, early, sweet, juicy, flesh firm, parting from stone, skin yellow with red cheeks. Ripens in July. Price, 3 to 5 ft., 75c.

QUINCE—An orchard is not quite complete without one or more quince trees to make the much prized quince preserves. Price, 3 to 4 feet, 60c each.

SWEET POMEGRANATE—Large, very sweet and delicious. Price, 2 to 3 ft., 60c each.

Cherries

While not classified as commercial fruit yet most everyone wants one or more trees.

EARLY RICHMOND (Sour)—Medium size, bright red. Ripens late May.

BLACK TARTARIAN (Sweet)—Fruit large, black, heart shaped. Price, 3 to 5 feet, 75c each.

Plums

ABUNDANCE—Large, amber color changing to red. Fine.

RED JUNE PLUM—This variety is no doubt the very best for all purposes. Our variety of Red June Plum is superior to the Red June that is usually sold. Fruit is large, rich red, very juicy, sweet, flesh light yellow, firm, cling to half cling. Small pit. Very showy. Tree is rapid grower and very hardy.

BURBANK—Fruit large, round; skin deep red overlying a yellow ground; flesh yellow, meaty and sweet. Tree bears young and abundantly.

Price, 2½ to 3 ft., 35c each; 10 for \$2.75; 4 to 6 ft., 50c each; 10 for \$4.00.

Pears

THE PINEAPPLE OR BLIGHT-LESS SAND PEAR—Large, smooth, firm, cream colored, fine flavored when mellow. It makes the most delicious preserves, marmalades, etc. It is a fine shipper and will keep for months when properly stored. Any fruit tree that bears from 25 to 75 bushels of fine fruit per year is worthy of most serious consideration. The fruit sells readily. Ripens from August to September.

This pear comes into bearing the third to fourth year after setting out. The tree is extremely thrifty, vigorous, and a rapid grower on all types of soil. Our wood is gotten directly from old parent trees and is therefore the **GENUINE BLIGHTLESS STOCK**. They make beautiful shade trees for yard, and one or more should be in every Home Orchard.

	Each	10	100
3 to 4 feet	\$.40	\$3.50	\$30.00

5 to 6 feet.....	.60	5.50	50.00
6 to 8 feet.....	.70	6.50	60.00

LARGE SPECIMEN TREES—For quick results buy our large 3 year specimen trees with heavy fibrous root system, beautiful headed tops and smooth trunk. The etxra gain in fruit one year will several times pay the small difference in cost.

3-year, properly headed, each.....\$1.00; Ten \$9.50

LeCONTE—A well known eating variety. A splendid bearer of medium size fruit, very juicy sweet and delicious. Cream colored when ripe with red blush. Early bearer. Price, 4 to 5 feet., 75c each.

KIEFFER—Old favorite for canning especially desirable North of Tennessee line. Can be depended upon for a good Crop. Fruit is large, yellow with blushed cheeks. Late. Price, 4 to 5 feet, 75c each.

JAPANESE PERSIMMON

TANE-NASHI is the very best all purpose variety. Fruit large pointed, skin very smooth, bright yellow, changing to almost red when fully ripe, flesh yellow. Practically seedless, very fine flavor. 3 to 4 ft., each, 60c.

Lumberton, Mississippi

[illegible]

Apples

From early June when the Early Harvest begins to ripen throughout the summer months to late fall one can have delicious apples for home use and many to give away as well as a good many bushels to sell on local market, at a good price.

EARLY HARVEST is one of the earliest varieties, ripening in June. It is round, yellow, flesh white, tender, juicy, with a rich sub-acid flavor. Tree very prolific and hardy.

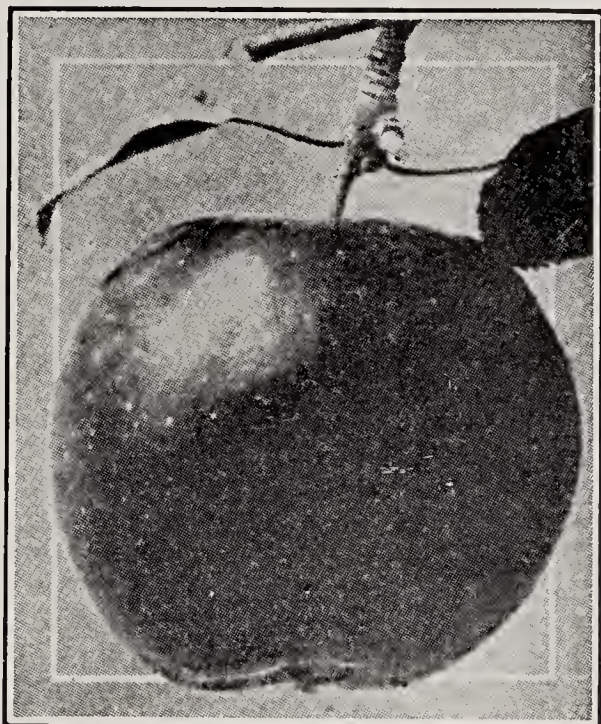

RED JUNE—This is the other early Apple best for home. It is a rich, red, round, fine flavor. Ripens here early in July. A beautiful sight when loaded with red apples.

CLARK—This is a variety that is native to Central and South Mississippi. being very hardy, prolific bearing, large round cream colored with red stripes. Very juicy, crisp and good.

DELICIOUS—A very popular variety for fall and early winter use. Fruit large brilliant dark red, flesh fine grained, crisp, melting, juicy, with delightful aroma. Very high quality. Fine keeper and shipper.

STAYMAN'S WINESAP—Large, bright red, fine juicy, extremely productive. Tree vigorous grower, adapting itself to different soils. Ripens in Fall. One of the best varieties.

HORSE APPLE—An old time favorite. Big yellow apple that mellows so well. Ripens in October.

	Each	10	100
3 to 4 feet.....	\$0.40	\$3.50	\$32.50
4 to 6 feet.....	.50	4.50	40.00
2-year, branched, large, each.....	.75	Extra large \$1.00 ea.	

Grapes

NIAGARA—Cream colored when full ripe, large full clusters; fruit sweet and juicy. The two year vines in our nursery bore as many as 22 large, full bunches. Vines are vigorous, rapid growers.

CONCORD—Well known bluish purple or black grape. Used very extensively for market purposes. Bunches large and compact; berries large, round, juicy, sweet, aromatic. Vines vigorous, rapid growers. Price, 20c each; 10 for \$1.50.

Scuppernong

WHITE or BRONZE. This is fine variety, especially for home use. The fruit is large, sweet and very juicy. Ripens in August.

JAMES—Large, black fruit borne in clusters of 10 to 20 Very fine.

PRICE—2 year 40c each; \$3.50 for 10.

Best time to set out trees, shrubs and plants is during winter months when the ground is cool and damp and the stock is in a dormant stage.

The housewife welcomes company when the cupboard is well supplied with canned fruits.

Figs

CELESTE is the so-called blue fig or sugar fig. It bears heavily; early. Fruit is small, very sweet, juicy, tender. Best fig for home use.

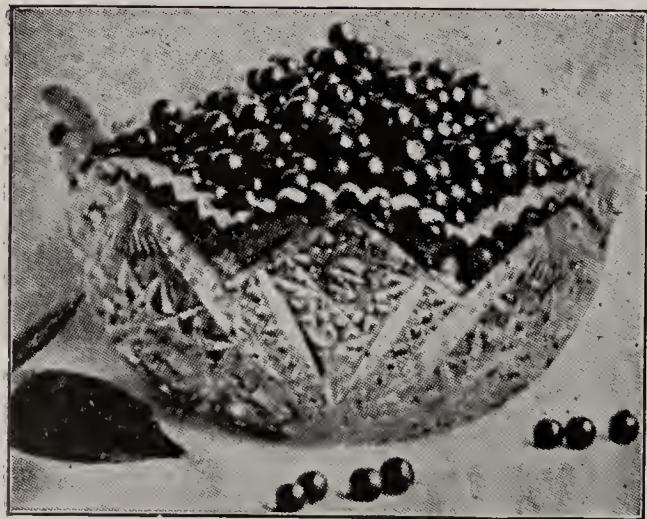

BROWN TURKEY is the best large variety. It is hardy and thrifty. Fruit very large, brownish purple, sweet. 2 to 4 feet, each, 40c; 10 for \$3.50.

Strawberries

KLONKYKE—This variety is grown most extensively of all strawberries, both for home and market purposes. It is a large, dark red berry, fine shipper, being firm, fine delicious flavor. 100 to 300 plants enough for family garden. 100 postpaid, \$1.00; 300, postpaid, \$2.25; 1,000 not prepaid, \$7.50.

YOUNGBERRY—This berry is becoming very popular and justly so as it is a prolific bearer of juicy berries, size and shape of dewberry but have the flavor of raspberry. Makes delicious juices and jellies with that distinct flavor of raspberries which do not succeed in the South. Our plants if set out in the winter and trained on a wire in spring will produce many berries the first season. Price, 12 for \$1.00; 100 for \$7.50.

TO SAVE, join in with your friends and BUY IN QUANTITY LOTS.

Blueberries

THE BLUEBERRY grows well on various soils, from light sandy to heavy moist, and thrives best in the sections where the old time Huckleberry grows. It does NOT grow on lime soils. The tree grows rapidly and comes into bearing generally the second year after setting out. Tree grows to be about 10 feet high with same spread. Berry is large, blue-black, tender skin, flesh juicy and delicious. There is no limit to the market for this berry which ships remarkably well without refrigeration.

FOR HOME ORCHARDS they may be grouped and used to beautify the grounds.

PRICE—2 to 3 feet, 2 year plants, 50c each; 10 for \$4.00. Heavy, bearing, 3 year plants, well branched, 75c each.

Those who economized on non-essentials and set out fruit and nut trees are reaping a bountiful harvest of choice fruits.

A Snap-shot of Our Truck Delivering Choice Palms and Evergreens.

TERMS AND CONDITIONS OF SALE

OUR AIM is to be fair, square and honest and it is our sincere desire to ALWAYS give customers full value for their money. Should an error occur it is unintentional and we shall be glad to correct same.

WE DO GUARANTEE our stock to be well grown, properly dug, packed and shipped according to directions and should live and grow off if properly and promptly set out and given reasonable amount of care.

WE DO NOT GUARANTEE trees or plants to live for the reason we have no control over them after they are delivered.

CLAIMS—If by any possibility errors should occur, they will be promptly rectified, if claim is made UPON RECEIPT OF TREES.

CALL FOR YOUR TREES PROMPTLY at the express office, inspect them and if any are broken or damaged, have agent to write on express receipt stating such and send the express receipt to us. We will then send you another shipment and file a claim with express company for the amount of damage.

TERMS—Our terms are cash with order when shipment is to be made at once. If order is sent in before shipping season, 25 per cent of purchase price may be sent with order, trees will be held for customers until he wishes them shipped, at which time balance of purchase price should be sent.

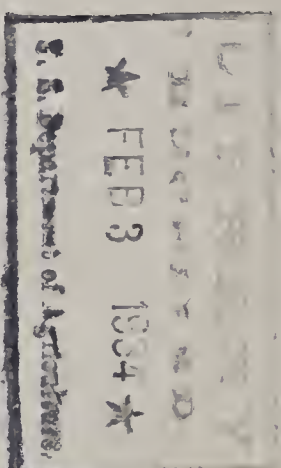

OUR SHIPPING FACILITIES are exceptionally good, having the Southern Railroad running through Lumberton. We have local and long distance telephone and telegraph service.

SUBSTITUTIONS—If out of the varieties ordered, we will send the ones we know to be equal or superior unless instructed not to substitute.

NO EXTRA CHARGE FOR PACKING OR DRAYAGE—Our trees are carefully tagged, tied, roots packed in damp material and wrapped, free of charge.

OUR TREES ARE FREE OF DISEASE—A certificate of inspection of the Mississippi State Entomologist guaranteeing our trees to be free of disease accompanies each bundle of trees. ALL INSPECTION LAWS OF OTHER STATES ARE COMPLIED WITH.

An Orchard On Every Farm For Profit, Health, Happiness

Nature DOES her part—Man is expected to DO his.
